PART 2

SPECIAL POLICY ON FOREIGN INVESTMENT

SPECIAL POLICY
ON FOREIGN

INVESTMENT

Several Policies of Beijing Economic-Technological Development Area (BDA) on Supporting High-quality Development of Foreign-invested Enterprises

To implement the spirit of the relevant documents of the State Council and Beijing Municipality on further optimizing foreign investment environment and increasing intensity of attracting foreign investment, comprehensively upgrading efficiency of Beijing E-Town to promote the high-quality development of foreign-invested enterprises, promote a new round of high-level opening-up, this policy is hereby formulated as following.

Article 1. Support the establishment of headquarters-type enterprises of multinational companies.

Foreign investors who newly establish regional headquarters or functional headquarters of multinational companies in E-Town Free Trade Zone, will be granted establishment incentives of no more than 3 million yuan or 2 million yuan respectively, paid in 3 years at rates of 40%, 30%, 30%.

The above-mentioned enterprises, if the total paid-in contract foreign capital is equal to or more than 10 million US dollars within one year from the date of establishment, will be rewarded 2.5% of the total paid-in contract foreign capital, no more than 30 million yuan for each enterprise. Among them, for the regional headquarters and functional headquarters of the world's top 500 multinational companies (according to the annual ranking of the American economic magazine "Fortune" in the past five years), the reward ratio can be increased by 0.5%, and the maximum reward is 100 million yuan.

Article 2. Support the development of foreign-invested enterprises in the field of advanced manufacturing.

Foreign-invested enterprises newly established by foreign investors in the fields of advanced manufacturing that conform to the industrial development direction of E-Town, if their total paid-in contract foreign capital within one year from the date of establishment is 10 million U.S. dollars (or the same value in other foreign currency) or more, will receive 2.5% of the total amount of paid-in contract foreign capital as reward, up to 30 million yuan for each enterprise.

To support the large-scale development of foreign-invested enterprises in advanced manufacturing fields such as new-generation information technology, pharmaceutical and healthcare, new energy intelligent vehicles, and intelligent manufacturing, foreign-invested enterprises newly established during the policy implementation period that break annual output value of 100 million, 300 million, 500 million, or 1 billion yuan for the first time, will receive a one-time rewards of 1 million, 3 million, 5 million, or 10 million yuan respectively.

Article 3. Support foreign-invested enterprises to participate in the construction of international service environment.

To support moving in and development of foreign-invested enterprises in E-Town in the service industry (excluding real estate projects), if their total paid-in contract foreign capital within one year from the date of establishment is 2-5 million US dollars, 5-10 million US dollars, 10 million US dollars more, enterprises will receive a one-time rewards of 400,000, 800,000, and 1.5 million yuan respectively.

To support the development of foreign-invested enterprises in production related service fields such as R&D and design, financial services, modern logistics, supply chain management, and information services, foreign-invested enterprises newly established during the policy implementation period that break annual operating income of 100 million or 300 million yuan for the first time, will receive a one-time reward of 1 million yuan or 3 million yuan.

To support the development of foreign-invested enterprises in the fields of law, consulting, medical care, healthcare, elderly care, childcare, tourism, housekeeping and other life services foreign-invested enterprises newly established during the policy implementation period that break annual operating income of 30 million yuan or 50 million yuan, will receive a one-time reward of 500,000 or 1 million yuan respectively.

▶ **Article 4. Support the upgrading and expansion of existing foreign-invested enterprises.** Foreign investors who make additional investment or increase registered capital using corporate profits, capital reserves, etc. (excluding real estate projects), if their total annual paid-in contract foreign capital is 100 million yuan (or 15 million US dollars) or more, will receive a 1.5% of the total contract foreign capital paid in that year as reward, no more than 20 million yuan for each enterprise.

▶ **Article 5. Support the establishment of foreign-invested R&D centers.** Foreign-funded R&D centers that are recognized by the municipal industry authorities, will receive 2 million yuan as recognition reward, with a payment schedule of 40%, 30% and 30% in three years.

Those who are authorized and classified as the global R&D centers of their parent multinational companies, and whose cumulative total R&D investment is no less than 10 million US dollars, and their R&D investments in the previous year account for no less than 10% of their parent company's global R&D investment, will receive an additional 3 million yuan as recognition reward, with a payment schedule of 40%, 30% and 30% in three years.

▶ **Article 6. Support the innovation and entrepreneurship of international talents.** Foreign-invested enterprises newly established by foreign talents and teams in line with the industrial development direction of E-Town, if their total paid-in contract foreign capital within one year from the date of establishment is no less than 1 million US dollars, and the foreign talents and teams own no less than 30% of company's share, will receive 50% subsidy for office rent for three consecutive years, with the maximum subsidized area not exceeding 2000 m², and the overall subsidy not exceeding 1.5 yuan/ m² /day.

▶ **Article 7. Support the construction of internationalized industrial parks.** To support the construction of a group of international industrial parks that have the bearing conditions and service capabilities for international enterprises, those industrial parks with clear industrial positioning and in line with the evaluation standards of international parks, will receive facilitation supports such as administrative approval, government services, and opening of supporting resources after recognition.

Those industrial parks who carry out transformation of supporting facilities in office, production, and living conditions according to the needs of internationalized enterprises, and add more than 5 million yuan in related fixed assets (excluding land purchase costs), will receive a one-time financial support equivalent to 5% of the fixed asset investment, with maximum no more than 2 million yuan.

Industrial parks that have attracted foreign-invested enterprises (except for enterprises that have already received paid-in contract foreign investment rewards) with a total paid-in contract foreign investment of more than 10 million US dollars (including), (the park operator) will receive financial rewards equivalent to 1% of the total amount of paid-in contract foreign investment, with a maximum of 5 million yuan per year.

▶ **Article 8. Strengthen the full life cycle services for the development of foreign-invested enterprises.** A "Two Zones" construction service area is set up to integrate the life cycle of government services for the development of foreign-invested enterprises, and to achieve "one door, one window, and one network" for foreign-related approval matters.

Extremely simplified approval services are promoted to create an integrated government administration application scenarios for enterprises focusing on the overall process of contract, construction, and operation of foreign-invested enterprises.

A diversified comprehensive consulting service window is set up to provide enterprises with comprehensive foreign-related consulting services such as international economic and trade rules, certification of origins, and assistance on overseas intellectual property matters.

A green channel for the report and feedback of foreign-invested enterprises is established with a special service hotline for enterprises and an all-weather feedback channel on the online platform, so to provide a "timely and online" butler service.

An inclusive and prudent comprehensive supervision system is explored to establish a credit rating mechanism for foreign-invested enterprises, and to achieve a goal of "least-disturbance" and "active respond" to enterprises.

Article 9. Create a "one-stop" butler service for international talents. Focusing on the actual needs of international talents on entrepreneurship, employment, and entertainment in Beijing E-Town, we integrate services such as senior talent identification, entry-exit visas, etc., and explore and introduce special services called "comprehensive handling of multi-certificates" (work permit + residence permit + medical insurance + social security), improved "one-stop" service capabilities for international talent. Relying on the multi-tentacular platform such as E-Town Enterprise Service Platform, we promote the handling of residence permit, work permit, starting a business, social insurances, and other businesses to further extend to the grassroots such as parks and communities, and explore the "1+N" new service model for overseas high-end talents driven by Beijing E-Town international talent service hall, providing high-quality and diversified "least-distance" services for international talents nearby.

These measures are applicable to foreign-invested enterprises or institutions that have completed industrial and commercial registration, tax registration, and statistical registration within the area of 225 square kilometers in Beijing E-Town (unless otherwise specified in individual clauses). Foreign-invested enterprises in this policy refer to enterprises invested directly by foreign investors (including Hong Kong, Macao, and Taiwan regions), alone or with other investors. Enterprises need to have no major administrative punishment records and criminal records in the past 3 years, and have not been included in the list of serious illegal and dishonest entities. Enterprises included in the prohibited and restricted categories of the "Catalogue of Prohibited and Restricted New Industries in Beijing" will not be supported.

If the state government, Beijing municipality, and BDA have issued relevant support policies or have implemented the relevant policies of BDA entry agreement (BDA development agreement), it will be implemented in accordance with the principle of "follow higher not lower, follow better and no repeat". Article 1, Paragraph 1, Article 5, Article 6, and Article 7, Paragraph 3 of this policy are not linked to the economic development contribution of the year. The total amount of policy support in other clauses shall not exceed 50% of the disposable part of the local-level income of the enterprise in BDA for the year. Key foreign-invested projects are supported in accordance with "special matters, specially managed".

The total paid-in contract foreign capital shall be based on the amount received by the Ministry of Commerce, the amount of policy cashing shall be based on the data fed back by the Ministry of Commerce, and the foreign exchange rate of the country on the actual arrival date of the foreign currency shall be used as the conversion basis.

This policy is valid for three years starting from the date of promulgation. During the implementation period, if relevant parenting policies by state government or Beijing municipality are adjusted, the Policies will be adjusted accordingly.

The Administration Committee of Beijing Economic-Technological Development Area is responsible for the interpretation of this policy.

PART 3

LIST OF SUPPORTING ITEMS

LIST OF SUPPORTING ITEMS

01		Subcategory	No.	Support Item	Level	Support policies
LANDING SUPPORT	Start-up rewards	1	1	Funding assistance for foreign talents to start a business	district-level	one-time subsidy of 200,000 yuan
		2	2	Support international organizations to set up branches in Beijing for the first time	municipality-level	Up to 2 million financial support
		3	3	Support newly established scientific and technological service institutions	municipality-level	up to 300,000 yuan financial support
	Leasing subsidy	4	4	Store decoration and rent subsidy for the first store and first launching of the commercial brands	municipality-level	up to 5 million yuan support
	Subsidies for operating expenses	5	5	Subsidies for operating expenses of high-end service organizations	district-level	Enjoy an annual operating expense subsidy of 300,000 yuan for three consecutive years
02		Subcategory	No.	Support Item	Level	Support policies
BUSINESS DEVELOPMENT	Regional contribution rewards	6	6	Paid-in capital subsidies for financial institutions and branches	district-level	Up to 60 million yuan
		7	7	Regional Economic Contribution Rewards for Investment Institutions	district-level	Up to 10 million yuan
	Recognition Rewards	8	8	Tax preference for Foreign-funded R&D Centers	municipality-level	The part not exceeding 20 million yuan in a tax year shall be exempted from enterprise income tax; For the part exceeding 20 million yuan, the enterprise income tax will be levied by half.
		9	9	High-tech enterprise identification support	municipality-level	Implement "approval upon filing"
		10	10	Identification rewards for specialized, refined, differential and innovative enterprises and single-item champion enterprises in the manufacturing industry	district-level	Graded support will be given and the difference will be made up based on grades
	11	11	Support the development of science and technology service brand institutions	municipality-level	Up to 3 million yuan support for each enterprise each year	
	Expand market support	12	12	Support pioneer product of enterprises to enter the market for the first time	municipality-level	Up to 5 million yuan annual support for each international pioneer product
13		13	Expense support for new product release activities of well-known domestic and international brands	municipality-level	up to 2 million yuan support	

Expand market support	14	14	Synergistic incentives for leading enterprises in the industrial chain to reinforce and upgrade the chain	municipality-level	Up to 30 million yuan	
	15	15	Enterprise exchange activities support	district-level	Up to 1 million yuan	
Upgrading rewards	16	16	First-time upgrading reward for advanced manufacturing enterprises	municipality-level	Up to 700,000 yuan accumulatively	
	17	17	Support advanced manufacturing enterprises and software information service industries whose output value exceeds 100 million yuan (inclusive) for the first time and is included in the statistical scope above the scale but not in the prohibited and restricted list	municipality-level	Up to 700,000 yuan accumulatively	
	18	18	Rewards for small and micro technology-based enterprises to "upgrade and be included in the statistic scope"	district-level	Up to 300,000 yuan	
Enterprise Listing Rewards	19	19	Support enterprises to be listed on domestic main boards and small and medium boards	district-level	Up to 12 million yuan special rewards accumulatively	
	20	20	Support enterprises to be listed on the domestic Science and Technology Innovation Board, Growth Enterprise Market, and Beijing Stock Exchange	district-level	Up to 12 million yuan special rewards accumulatively	
03		Subcategory	No.	Support Item	Level	Support policies
R&D innovation rewards	21	21	R&D incentives for foreign-funded R&D centers	municipality-level	Up to 10 million yuan financial support	
	22	22	R&D expenses additional deduction support	district-level	Up to 3 million yuan support	
	23	23	Support enterprises to carry out disruptive technological innovation	municipality-level	Up to 7 million yuan subsidy accumulatively Up to 30 million yuan equity investment	
	24	24	Support leading enterprises to implement the "Chain Reinforcement Project"	municipality-level	Up to 10 million yuan	
	25	25	Support technology-based small and micro enterprises to carry out key technology innovation	municipality-level	Up to 300,000 yuan financial support	

03

SCIENTIFIC AND TECHNOLOGICAL INNOVATION

Patent protection subsidy	26	Support the construction of patent pools in key areas	municipality-level	The total amount of support for a single patent pool shall not exceed 20 million yuan
	27	Support key enterprises to carry out PCT and other high-value patent layout	municipality-level	The support amount of each leading intellectual property enterprise in Zhongguancun shall not exceed 1 million yuan
	28	Support innovative subjects to build patent pools	district-level	Up to 50 million yuan per year
Achievement Commercialization Reward	29	Support small, medium and micro enterprises to commercialize high-tech achievements	municipality-level	Up to 2 million yuan financial support
	30	Support integrated and efficient collaboration of industry, university and research institutes	district-level	Up to 10 million yuan each unit
	31	Support the first (set) technology breakthrough, application demonstration and system integration	district-level	Up to 5 million yuan
Scenario Demonstration Support	32	Support the construction of key application scenario demonstration projects	municipality-level	Up to 10 million yuan of financial support in different grades will be given to the project construction unit
	33	Rewards for the application of new infrastructure, new technologies and new products	municipality-level	Up to 30 million yuan
Subcategory	No.	Support Item	Level	Support policies
Biomedical industry support	34	Support the industrialization of major international achievements	district-level	Up to 20 million financial rewards per year
	35	Support the industrialization of centralized procurement of products	district-level	Up to 3 million yuan reward for a single product
	36	Rewards for the first trial production of innovative pharmaceutical products	municipality-level	Up to 5 million yuan for single product
	37	Rewards for newly marketed drugs registered in Beijing	municipality-level	Up to 2 million yuan reward
	38	Support major technological innovations of pharmaceuticals and medical devices	municipality-level	Up to 10 million yuan financial support per year
	39	Support the construction of platforms such as pharmaceutical and medical device professional platforms, testing and inspection service platforms, and Zhongguancun Medical Achievement Transformation Center	municipality-level	Up to 10 million yuan financial support per year

04

INDUSTRY SUPPORT

04

INDUSTRY SUPPORT

Biomedical industry support	40	Support pharmaceutical and medical device enterprises to explore the market	municipality-level	Up to 1 million yuan financial support to each enterprise per year
	41	Support pharmaceutical and medical device companies to carry out restructuring, listing and mergers and acquisitions	municipality-level	Up to 1 million yuan support to each enterprises each year
	42	Strengthening the ability to incubate medicine and medical devices	municipality-level	Up to 10 million yuan financial support per year
	43	Support the development of service institutions for the transformation of scientific and technological achievements in the field of medicine and health	municipality-level	Up to 2 million yuan financial support per year
	44	Support characteristic parks to improve their operation and service capabilities	municipality-level	Up to 3 million yuan financial support per year to characteristic parks in non-central areas
	45	Support the construction of regional headquarters and R&D centers	municipality-level	Up to 5 million yuan financial support
	Support for the electronic information industry	46	Support the construction of a new generation of artificial intelligence major application scenarios	district-level
47		Support Internet 3.0 new technology experience verification	municipality-level	Up to 10 million yuan
48		Support the expansion of application scenarios	municipality-level	Up to 30 million yuan
49		Discounted interest on fixed asset loans and working capital loans for software and information service industries	municipality-level	Up to 30 million yuan discounted interest
Support for automobile industry	50	Automobile industry chain synergy awards	municipality-level	Up to 100 million yuan
	51	Encourage foreign-funded new energy smart car manufacturers and production bases of key components to settle down	district-level	Up to 100 million yuan
	52	Support the demonstration application of fuel cell vehicles	district-level	Graded financial support on the basis of the national incentive funds
	53	Support the application of key parts and components of fuel cell	district-level	Financial support shall be given on the basis of 30% of the National Comprehensive Evaluation Points Incentive Fund

04

INDUSTRY SUPPORT

Support for automobile industry	54	Support the integration of fuel cell vehicles into the construction of high-level autonomous driving demonstration zones	district-level	Up to 3 million yuan
Intelligent Manufacturing Industry Support	55	"New Intelligent Manufacturing 100" Project Rewards	municipality-level	Up to 30 million yuan for a single project
Support for hydrogen energy industry	56	Support the construction of hydrogen refueling stations	district-level	Support in land planning, project approval, business permits, etc.
	57	Support the expanded application of hydrogen energy in the field of transportation	district-level	Up to 5 million yuan for each project
	58	Support the creation of diversified application scenarios of hydrogen energy	district-level	Up to 5 million yuan for each project
Xingjian Network Industry Support	59	Support the large-scale development of enterprises	district-level	One-time reward of up to 1 million yuan
	60	Support the opening and coordination of the industrial chain	district-level	Up to 3 million yuan
	61	Support the establishment of Satellite-rocket Network Industry Base	district-level	Guide the clustered development of satellite-rocket network enterprises
Digital economy industry support	62	Support investment and construction of major new infrastructure projects	district-level	Up to 50 million yuan reward for single project
	63	Support enterprises or institutions to participate in the construction of information infrastructure in BDA	district-level	Up to 10 million yuan subsidy to single project
Subcategory	No.	Support Item	Level	Support policies
Innovation platform construction support	64	Support the construction of common technology platforms for high-tech industries	municipality-level	Up to 15 million yuan financial assistance per year to preferential enterprises
	65	Support the construction of a concept verification platform for scientific and technological achievements	municipality-level	Up to 15 million yuan support to single platform
	66	Support the construction of technological innovation centers	municipality-level	Up to 50 million yuan support accumulatively
	67	Support newly-introduced or newly-approved enterprise to open innovation center	district-level	Grant high-grade innovation support in national, Beijing municipal and district-level innovation and openness

05

CARRIER SUPPORT

Innovation platform construction support	68	Strengthen the ability to support industrial common technologies	district-level	Up to 5 million yuan financial support
Innovation incubation carrier support	69	Operation incentives to those whose comprehensive evaluation is "qualified"	district-level	The amount of operation reward is calculated on the basis of 25% of the total rent of the previous year
	70	Carrier operation rewards, common technology platform support, professional incubation support, etc. to those whose comprehensive evaluation is "excellent"	district-level	Operation reward amount shall be calculated based on 50% of the total rent of the previous year
				Up to 2 million yuan support to common technical platforms
		Up to 300,000 yuan support to professional incubation activities		
71	Encourage the upgrading of innovative incubation carriers	district-level	Up to 1 million yuan rewards and subsidies	
Subcategory	No.	Support Item	Level	Support policies
technical transformation support	72	Support digital, intelligent and green transformation of enterprises	municipality-level	Up to 30 million yuan rewards
	73	Rewards for transformation and upgrading of key projects and institutions that meet the standards	municipality-level	Up to 30 million yuan
	74	Interest discount support for digital and intelligent transformation of enterprises	district-level	Up to 10 million yuan

23. Support for enterprises to carry out disruptive technological innovation

municipality-level

- **Support content:** Support enterprises to cooperate in disruptive technological innovation and commercialized innovative achievements in Beijing. Support will be made by means of advanced subsidy + equity investment. In the first year, the amount of support shall not exceed 2 million yuan, and in the second year, up to 5 million yuan of financial support shall be given on the basis of the completion of performance targets. In the third year, equity investment will be adopted for support. The capital contribution of relevant municipal platforms will not exceed 30 million yuan, accounting for up to 30% of the shares, and will not be the largest shareholder.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

24. Support for Leading companies to implement the "Chain Reinforcement Project"

municipality-level

- **Support content:** Support leading enterprises and qualified unicorn enterprises to take the lead in joint technical research. Improve the industrial chain and supply chain, and give priority to equity investment for support. The capital contribution of relevant platforms at the municipal level shall not exceed 30% of total investment of the project, the maximum shall not exceed 10 million yuan, accounting for no more than 30% of shares, and shall not be the largest shareholder.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

25. Support for technology-based small and micro enterprises carry out key technology innovation

municipality-level

- **Support content:** Support small and micro scientific and technological enterprises in high-tech industries to strengthen innovation capacity building. A post-subsidy method will be adopted, and give financial support in two grades on the basis of the year-on-year increment of R&D expenses in the latest fiscal year. (1) If year-on-year increase of R&D expenses is more than 5 million yuan (including), financial support up to 300,000 yuan will be given; (2) If the R&D expenses increase by 1 million yuan (including) to 5 million yuan year-on-year, financial support up to 200,000 yuan will be given; (3) Up to 300,000 yuan of financial support will be given to the winners of China Innovation and Entrepreneurship Competition, China Innovation Challenge and Zhongguancun International Frontier Science and Technology Innovation Competition.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

PATENT PROTECTION SUBSIDY

26. Support for the construction of patent pools in key areas

municipality-level

- **Support content:** Support the construction of patent pools in key industries. One of the following two ways will be adopted for support: (1) The support period is generally no more than 3 years, and the total amount of support for a single patent pool is no more than 20 million yuan. The amount of support in the first year shall not exceed 10 million yuan. In the second and third years, on the basis of the outcome of the performance appraisal of the patent pool in the previous year, no more than 6 million yuan and 4 million yuan of financial support will be given respectively; (2) A single patent pool shall be given no more than 30% of the project loan interest, or no more than 20 million yuan financial support.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

27. Support for key enterprises to carry out PCT and other high-value patent layout

municipality-level

- **Support content:** Support leading intellectual property enterprises and demonstration enterprises in Zhongguancun to carry out high-value patent layout such as PCT. The post-subsidy method will be adopted, on the basis of 50% of the actual expenses incurred, within the maximum subsidy amount, in which the support amount of each Zhongguancun intellectual property leading enterprise does not exceed 1 million yuan, and the support amount of each Zhongguancun intellectual property demonstration enterprise does not exceed 500,000 yuan.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

28. Support for innovation subjects to build patent pool

district-level

- **Support content:** Encourage innovative subjects to build patent pools focusing on core technologies and products in upstream and downstream of the industrial chain, strengthen high-quality intellectual property reserves in key technical fields, strengthen collaborative application and joint protection of patents, and up to 50 million yuan financial assistance each year will be provided for patent maintenance in the pool.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

REWARDS FOR ACHIEVEMENT COMERCIALIZATION

29. Support for small, medium and micro enterprises to commercialize high-tech achievements

municipality-level

- **Support content:** Support SMEs to commercialize high-tech achievements and carry out industrialization. SMEs undertaking the commercialization of scientific and technological achievements shall be given financial support of up to 2 million yuan on the basis of 10% of the turnover of technology contracts signed in the previous year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial), (Jingkefa [2022] No. 5)

30. Support for efficient and integrated collaboration of industry, university and research institutions

district-level

- **Support content:** Support world-class universities and research institutes to set up new R&D institutions such as innovation research institutes in BDA, and form a batch of strategic scientific and technological forces leading innovation focusing on the four leading industries and strategic emerging industries, and produce a batch of world-class major scientific and technological achievements. Confirmed universities and research institutes will be rewarded on the basis of the commercialization of scientific and technological achievements in the previous year, and each unit will be rewarded up to 10 million yuan.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

31. Support for the first (set) technology breakthrough, application demonstration and system integration

district-level

- **Support content:** Support the first (set) technological breakthrough, application demonstration and system integration, encourage the application units and research units in BDA to jointly develop the first (set), promote the industrialization of major innovation achievements, and encourage market players to purchase innovative products and services through long-term agreed procurement. For the first (set) project that meets the support conditions, the R&D party shall be given up to 30% of the implementation amount of the first (set) confirmed contract.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

SCENARIO DEMONSTRATION SUPPORT

32. Support the construction of key application scenario demonstration projects

municipality-level

- **Support content:** Support the construction of application scenarios in key industries. A post-subsidy method will be adopted, and the project construction unit will be given up to 10 million yuan of graded financial support on the basis of the proportion of 30% of the project contract amount.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability (Trial)", (Jingkefa [2022] No. 5)

33. Rewards for application of new infrastructure, new technologies and new products

municipality-level

- **Support content:** Investment in the construction of innovation experience center and scene laboratory, small batch verification projects of new technologies and new products, and large-scale promotion and application of new technologies and new products shall be rewarded up to 30% of the relevant investment, and the maximum annual reward amount of a single enterprise shall not exceed 30 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84); "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

04 INDUSTRIAL SUPPORT

List of policies for foreign-invested enterprises in Beijing Economic-Technological Development Area

SUPPORT FOR BIOMEDICAL INDUSTRY

34. Support for the industrialization of major international achievements

district-level

- **Support content:** Support international teams, pharmaceutical and medical device enterprises or projects with global patents, major breakthroughs potential and strong international competitiveness to land. For projects with independent self-built industrialization bases and new investment in fixed assets (except land purchase costs, the same below) exceeding 100 million yuan in the current year, a financial reward of up to 20 million yuan shall be given on the basis of the proportion of 20% of new investment in fixed assets, and the subsidy period of a single project shall not exceed three years. For the landing of particularly major projects, support will be given on the basis of "special matters, specially managed".
- **Advisory Unit:** Economic Development Bureau of BDA
- **Policy basis:** "Several Measures of the Beijing Economic-Technological Development Area on Promoting High-Quality Development of the Medical and Health Industry", "Several Measures of the Beijing Economic-Technological Development Area on Promoting High-Quality Development of Intelligent Manufacturing of High-end Medical Equipment Industry", "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Cell and Gene Therapy Industry", (Jingjiguanfa [2023] No. 5)

35. Support for the industrialization of centralized mass-purchased products

district-level

- **Support content:** Support the industrialization of centralized procurement products. Encourage enterprises to participate in the centralized procurement of drugs and medical devices in the state and Beijing. For drugs and medical device products industrialized in BDA and successful win bidding for the first time, they will be rewarded on the basis of the proportion of 3% of the total bid price, and the maximum reward amount for a single variety will not exceed 3 million yuan.
- **Advisory Unit:** Business Cooperation Bureau of BDA
- **Policy basis:** "Several Measures of the Beijing Economic-Technological Development Area on Promoting High-Quality Development of the Medical and Health Industry", "Several Measures of the Beijing Economic-Technological Development Area on Promoting High-Quality Development of Intelligent Manufacturing of High-end Medical Equipment Industry", "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Cell and Gene Therapy Industry", (Jingjiguanfa [2023] No. 5)

36. Rewards for the first trial production of innovative pharmaceutical products

municipality-level

- **Support content:** Class 1/Class 2 drugs and COVID-19 therapeutic drugs that have entered Phase II clinical trials and later stages since 2022, as well as medical devices that have entered the special/priority review procedures for innovative medical devices in China and Beijing or approved for emergency registration in Beijing/Ministry of Industry and Information Technology's short-list, and are determined to be industrialized in Beijing, up to 5 million yuan reward for a single drug shall be given, and up to 2 million yuan reward for a single medical device.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84); "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

37. Reward for newly listed drugs registered in Beijing

municipality-level

- **Support content:** For drugs registered in Beijing that is the first generics in China since 2022, the first three that have passed the consistency evaluation of the quality and efficacy of generic drugs, and are newly marketed ones among Catalogue of Encouraged Generic Drugs, National Shortage Drug List, National Key Monitoring List of Clinically Necessary and Shortage Drugs, up to 2 million yuan reward will be given.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84); "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

38. Support for major technological innovations of pharmaceuticals and medical devices

municipality-level

- **Support content:** For innovative drugs that have completed Phase II clinical experiment, the first generic drugs that have passed the consistency evaluation of quality and efficacy in China, and for enterprises with independent intellectual property rights that have applied for and obtained the registration certificates and production licenses of Class II and Class III medical devices in Beijing, up to 10 million yuan preferential financial assistance per year, or no more than 30% in total investment of the project on the basis of the proportion will be given.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

39. Support for the construction of platforms such as pharmaceutical and medical device professional platforms, testing and inspection service platforms, and Zhongguancun Medical Achievement Transformation Center

municipality-level

- **Support content:** Up to 10 million yuan financial support each year will be given on the basis of the proportion of no more than 30% of total investment of the project.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

40. Support for pharmaceutical and medical device companies to open up markets

municipality-level

- **Support content:** Subsidies will be given on the basis of the proportion of 80% of insurance premiums such as clinical trials and comprehensive liabilities, up to 1 million yuan financial support will be given each enterprise per year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

41. Support for pharmaceutical and medical device companies to carry out restructuring, listing and mergers and acquisitions

municipality-level

- **Support content:** 100,000 yuan of financial support will be given to each restructured enterprise, 50,000 yuan of financial support will be given to each enterprise listed on the standard board and science and technology innovation board of Beijing's four boards market, and 300,000 yuan of financial support will be given to each enterprise approved to be listed on the national SME share transfer system. Support pharmaceutical and medical device enterprises to carry out M&A and restructuring. For M&A transactions with amount of more than 10 million yuan (including), financial support shall be given to the acquiring enterprise on the basis of 5 ‰ of the merger transaction amount. The support amount for a single project shall not exceed 500,000 yuan each year, and the support amount for each enterprise shall not exceed 1 million yuan each year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

42. Strengthen the professional incubation capacity building of pharmaceuticals and medical devices

municipality-level

- **Support content:** Up to 30% subsidy will be given on the basis of the actual investment of the incubator, and the subsidy will not exceed 3 million yuan each year. Incubators with outstanding service outcome will be included in the support of Zhongguancun Hard Technology Incubator, and financial support of up to 10 million yuan will be given every year on the basis of the proportion of no more than 30% of the total investment of incubators.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

43. Support the development of service institutions for the transformation of scientific and technological achievements in the field of medicine and health

municipality-level

- **Support content:** Up to 2 million yuan of financial support will be given every year to institutions with outstanding service, on the basis of the performance and evaluation outcome, the proportion of actual related expenses not exceeding 50%.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

44. Support characteristic parks to improve operational service capabilities

municipality-level

- **Support content:** Support the construction and operation entities in the park to provide professional services for the settled enterprises, hold influential activities in characteristic fields, and increase supporting service facilities. For the institutions that carry out the above-mentioned work, on the basis of the proportion of no more than 30% of the actual investment amount, characteristic parks in central urban area will given up to 2 million yuan financial support per year, and characteristic parks in non-central urban area will given up to 3 million yuan financial support per year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

45. Support the construction of regional headquarters and R&D centers

municipality-level

- **Support content:** Up to 5 million yuan of financial support will be given to enterprises on the basis of the proportion of no more than 30% of the actual expenses incurred in housing purchase and lease, R&D equipment purchase, etc.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Several Measures on Promoting the Innovation and Development of the Pharmaceutical and Medical Device Industry in Zhongguancun National Independent Innovation Demonstration Zone", (Zhongkeyuanfa [2019] No. 27)

SUPPORT FOR ELECTRONICIS AND INFORMATION INDUSTRY

46. Support the construction of major application scenarios for new generation of artificial intelligence

district-level

- **Support content:** Promote the construction of a new generation of artificial intelligence major scene application demonstration zones, accelerate the application of 5G, IoT, blockchain, artificial intelligence, big data and other technologies, and accelerate the application of 5G ultra-high definition video, connected vehicle, industrial Internet and other industries. Optimize the supply of application scenario resources in BDA, provide up to 100 million yuan of financial support, and focus on supporting more than 10 high-level new generation information technology application demonstration projects each year.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

47. Support new technology experience verification of Internet 3.0

municipality-level

- **Support content:** Focus on the key direction in the stage of technical scheme design or commercial exploration in the field of Internet 3.0, encourage social capital to invest in building innovation experience centers and scene laboratories, and carry out demonstration and experiences focusing on cutting-edge new technologies, new products and solutions. Subsidies will be given on the basis of no more than 30% of the project investment, up to 10 million yuan for a single project. Encourage new infrastructure construction units or new technology and new product providers to test and verify the actual working conditions, environment and scenarios of small-batch products for new technology and new products in the field of Internet 3.0, further improve the adaptability and industrialization level of technical products, and provide subsidies on the basis of no more than 30% of the investment in small-batch testing, up to 10 million yuan for a single project.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Several Policies and Measures of Beijing Municipality for Promoting High-Quality Development of the Software and Information Service Industry", (Jingjingxinf [2022] No. 162)

48. Support extended application scenarios

municipality-level

- **Supporting content:** Implement the Work Plan for Improving Digital Consumption Energy Level in Beijing, and cultivate new scenarios of immersive experience of digital life and consumption such as online sports, digital cultural tourism and VR shopping. Open the industrial transformation scenario, support industrial enterprises to carry out green and intelligent transformation through the industrial Internet, and reward eligible projects on the basis of a certain proportion of the total investment included in the reward scope. The annual reward amount of each enterprise is up to 30 million yuan; Promote the integration and application of "Beidou+", and give no more than 2% loan discount support to eligible projects. The discount amount of each enterprise is up to 10 million yuan each year.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Several Policies and Measures of Beijing Municipality for Promoting High-Quality Development of the Software and Information Service Industry", (Jingjingxinf [2022] No. 162)

49. Provide discounted interest on fixed asset loans and working capital loans for software and information service industries

municipality-level

- **Support content:** Enterprises Incorporated into the statistical declaration of large-scale enterprises with fixed assets investment of more than 10 million yuan and already won bank loans will be given interest subsidies on fixed assets loans and working capital loans, up to 10 million yuan for each enterprise each year. For eligible M&A projects or major construction projects, up to 30 million yuan loan interest subsidy each year will be given to each enterprise that shall not exceed the quoted Loan Prime Rate(LPR) of medium and long-term loans of the People's Bank of China in the same period, up to 3 years (1 year for M&A).
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Several Policies and Measures of Beijing Municipality for Promoting High-Quality Development of the Software and Information Service Industry", (Jingjingxinf [2022] No. 162)

SUPPORT FOR AUTOMOBILE INDUSTRY

50. Rewards for collaboration of complete automobile industry chain

municipality-level

- **Support content:** For the leading enterprises in the industrial chain that have formulated the plan of reinforce and upgrade the chain and passed the audit, if the actual accumulated performance amount (excluding tax) is more than 3 million yuan (including) after signing the purchase contract for the first time (after January 1, 2021), the leading enterprises in the industrial chain will be rewarded on the basis of 5% of the actual performance amount. For automobile enterprises, the maximum reward amount for each supply chain supporting enterprise shall not exceed 30 million yuan, and the maximum annual reward amount for a single industrial chain leading enterprise shall not exceed 100 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinfo [2021] No. 84); "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

51. Encourage foreign-funded new energy smart car manufacturers and key parts production bases to settle down

district-level

- **Support content:** Encourage domestic and foreign new energy smart car manufacturers to settle in BDA, drive the clustered development of high-end parts supply system, and build an industrial development system lead by complete vehicle enterprises, supported by reasonable matching of core parts, and continuously reserved by cutting-edge technology research and development. Encourage foreign-funded enterprises to invest in the construction of production bases for key components such as powertrain, electric drive system and central control system in BDA. Leading enterprises that drives the formation of a 100 billion-level industrial cluster will be given up to 100 million yuan of innovative financial support.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

52. Support fuel cell vehicle demonstration applications

district-level

- **Support content:** Encourage enterprises in the fields of freight transportation and passenger transport to purchase fuel cell vehicles to participate in the demonstration. If enterprises purchase fuel cell vehicles during the demonstration period of Beijing-Tianjin-Hebei Fuel Cell Vehicle Demonstration Urban Agglomeration and are included in the Beijing Fuel Cell Vehicle Demonstration Application Project, they will be given financial support on the basis of 40%, 30%, 20% and 10% of the national incentive funds from the first year to the fourth year of the demonstration period.
- **Advisory Unit:** Business Cooperation Bureau of BDA
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

53. Support the application of key components of fuel cells

district-level

- **Support content:** If the key components of fuel cells are applied to vehicles in domestic demonstration urban agglomerations, financial support shall be given on the basis of 30% of the national comprehensive evaluation points reward funds.
- **Advisory Units:** Business Cooperation Bureau and rban Operation Bureau of BDA
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

54. Support the integration of fuel cell vehicles into the construction of high-level autonomous driving demonstration areas

district-level

- **Support content:** Encourage enterprises to combine fuel cell vehicles with the construction of high-level automatic driving demonstration zones in BDA, build an intelligent networked vehicle open scenario integrating vehicles, roads and clouds, encourage demonstration applications in public service fields such as sanitation and cleaning, urban management, convenience services, public transportation, travel services, logistics and distribution, and financial rewards will be given on the basis of 30% of the actual investment amount of a single demonstration project (self-raised fund by enterprises), up to 3 million yuan.
- **Advisory Units:** Municipal Autonomous Driving Office, Business Cooperation Bureau of BDA
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

SUPPORT FOR INTELLIGENT MANUFACTURING INDUSTRY

55. Reward for "New Intelligent Manufacturing 100" Project

municipality-level

- **Support content:** For intelligent manufacturing projects completed and put into operation from 2022 to the reporting deadline, with a construction period of no more than 3 years, fixed assets investment of no less than 5 million yuan, and compliant with relevant construction standards, they will be rewarded on the basis of a certain proportion of the total investment included in the reward scope. Among them, the reward ratio of general intelligent technological transformation projects whose implementation effect meets the Performance Requirements of Beijing Municipality on Intelligent Technological Transformation Projects does not exceed 20%; If an applicant was awarded the "Digital Workshop" and "Smart Factory" in Beijing, the intelligent technological transformation project implemented by such leading enterprises in the industrial chain and their supporting enterprises in Beijing that formulated a chain reinforce and upgrade plan and passed the audit, the reward ratio of the project did not exceed 25%; the reward ratio of new projects that meet the construction standards of "digital workshop" and "smart factory" in Beijing shall not exceed 25%; If an applicant was appraised as the "Lighthouse Factory" of the World Economic Forum or a new or technological transformation project implemented by the state-level "Intelligent Manufacturing Benchmarking Enterprise", the reward ratio shall not exceeding 30% and the maximum reward amount of a single project not exceeding 30 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84); "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

SUPPORT FOR HYDROGEN ENERGY INDUSTRY

56. Support the construction of hydrogen refueling stations

district-level

- Encourage the construction of hydrogen refueling stations that are compatible with the phased development goals focusing on hydrogen energy demonstration scenarios, and give priority to supporting the transformation of gas stations in BDA by means of oil-hydrogen joint construction. Support for land planning, project approval and business license will be provided.
- **Advisory Units:** Urban Operation Bureau, BDA Bureau of Beijing Municipal Commission of Planning and Natural Resources, Economic Development Bureau, Administrative Approval Bureau
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

57. Support the expanded application of hydrogen energy in the field of transportation

district-level

- **Support content:** Encourage enterprises to take advantage of diverse industrial ecology and rich logistics scenarios in BDA to expand the application of hydrogen energy in fuel cell forklifts, unmanned aerial vehicles, rolling stock and other transportation fields. For projects that have passed the examination and approval of the relevant departments of the state and Beijing and obtained subsidy funds, a certain proportion of supporting rewards will be given. For hydrogen energy demonstration and application projects identified by the Administration Committee of BDA, 20% of the project investment will be rewarded, and the maximum amount of district-level reward for a single project will not exceed 5 million yuan.
- **Advisory Units:** Business Cooperation Bureau, Economic Development Bureau, Science and Technology Innovation Bureau, Urban Operation Bureau
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

58. Support the creation of diversified application scenarios of hydrogen energy

district-level

- **Support content:** Encourage enterprises to take advantage of clustered factory buildings in BDA to carry out distributed energy demonstration applications or regional comprehensive demonstration applications such as photovoltaic power generation + hydrogen energy storage, cogeneration and standby power supply, and create "hydrogen energy park" and "zero carbon park". For projects that have passed the examination and approval of the relevant departments of the state and Beijing and obtained subsidy funds, a certain proportion of supporting rewards will be given. For hydrogen energy demonstration and application projects identified by the Administration Committee of BDA, 20% of the project investment will be rewarded, and the maximum district-level reward fund for a single project will not exceed 5 million yuan.
- **Advisory Units:** BDA Economic Development Bureau, Urban Operation Bureau, Development and Construction Bureau, Business Cooperation Bureau
- **Policy basis:** "Several Measures of Beijing Economic-Technological Development Area on Promoting High-Quality Development of Hydrogen Energy Industry", (Jingjiguan [2022] No. 125)

SATERLLITE-ROCKET NETWORK INDUSTRY SUPPORT

59. Support the scaled development of enterprises

district-level

- **Support content:** Support high-end aerospace manufacturing links such as rocket/satellite assembly and general measurement, production and assembly of key components such as engines, and production of ground terminal equipment to land in BDA. For satellite-rocket network enterprises whose annual output value exceeded 100 million yuan, 300 million yuan, 500 million yuan and 1 billion yuan for the first time, a one-time reward of up to 1 million yuan, 3 million yuan, 5 million yuan and 10 million yuan respectively will be given, and the difference will be made up by grades. For major projects of newly settled key satellite-rocket network enterprises or newly invested by existing enterprises, rent subsidies of not more than 50% of the annual rent paid shall be given, and the unit price of subsidies shall not exceed 1.5 yuan/day/ m².
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting the Development of Satellite-rocket Network Industry (Trial)", (Jingjiguan [2021] No. 186)

60. Support the open collaboration of the industrial chain

district-level

- **Support content:** Encourage the coordinated development of satellite-rocket network industry, purchase products from single enterprise in BDA. If orders totaling 10 million yuan or more current year, or purchase products from multiple suppliers in BDA, with orders increasing by 10 million yuan or more compared with the previous year, and a financial reward of 3% of the total orders will be given, up to 3 million yuan. Support the downstream application scenarios of satellite-rocket network industry to take the precedence in landing in BDA.
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting the Development of Satellite-rocket Network Industry (Trial)", (Jingjiguan [2021] No. 186)

61. Support the construction of the Satellite-rocket Network Industry Base

district-level

- **Support content:** Support the construction of Satellite-rocket network industrial base and ensure the development land use quota. Relying on the existing parks, focusing on the needs of high-end technical support and basic test facilities in the aerospace field, we will actively guide the clustered development of satellite-rocket network enterprises.
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting the Development of Satellite-rocket Network Industry (Trial)", (Jingjiguan [2021] No. 186)

SUPPORT FOR DIGITAL ECONOMY INDUSTRY

62. Support major new infrastructure projects that is under investment and construction

district-level

- **Support content:** For internationally renowned top core enterprises, if the major new infrastructure projects invested and constructed by them, which play a leading role in the areas of regional economic contribution, national strategic support or industrial ecological cultivation in BDA, or play a decisive role in the digital transformation and upgrading of traditional industries and form a mature and reproducible model, and implement more than three digital upgrading projects of traditional industries in BDA, no more than two projects will be selected on the basis of merit within the validity period of the policy. With the approval of the Working Committee and the Administrative Committee of BDA, additional key support will be given, reward up to 15% of the total investment, and the maximum amount of reward for a single project should not exceed 50 million yuan.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

63. Support enterprises or institutions to participate in the construction of information infrastructure in BDA

district-level

- **Support content:** Support enterprises or institutions to participate in the construction of information infrastructure in BDA (excluding computing power infrastructure). Those listed in district-level key projects and passed the acceptance according to the project acceptance criteria will be given a one-time subsidy on the basis of 1% of their actual investment in fixed assets (excluding VAT amount) or 50% discounted interest support according to their loan amount for fixed assets investment (the higher limit will be taken). The maximum subsidy for a single project is 10 million yuan, and no more than 5 projects will be selected within the validity period of the policy.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

05 CARRIER SUPPORT

List of policies for foreign-invested enterprises in Beijing Economic-Technological Development Area

SUPPORT FOR INNOVATION PLATFORM CONSTRUCTION

64. Support the construction of common technology platforms for high-tech industries municipality-level

- **Support content:** Support the construction of a number of common technology platforms in high-tech industries. The support period shall not exceed 3 years, and the total amount of support shall not exceed 50 million yuan. In the first year, up to 20 million yuan of financial support will be given, and in the second and third years, according to the outcome of annual performance appraisal, up to 15 million yuan of financial support will be given each year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability(Trial), (Jingkefa [2022] No. 5)

65. Support the construction of a proof-of-concept platform for scientific and technological achievements municipality-level

- **Support content:** Support the construction of a third-party proof-of-concept platform focusing on high-tech industries. The support period is generally no more than 3 years, the total amount of support for a single platform is up to 15 million yuan, and the annual support amount is no more than 30% of the platform construction budget of the current year.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability(Trial), (Jingkefa [2022] No. 5)

66. Support the construction of a technology innovation center municipality-level

- **Support content:** Support the construction of technological innovation centers: Support leading enterprises and qualified unicorn enterprises to take the lead, and unite universities, scientific research institutions and SMEs in the upstream and downstream of the industrial chain to build technological innovation centers. Support will be given by means of advanced subsidies, and the support period is generally no more than 3 years. On the basis of the proportion of 30% of the total construction budget of technological innovation centers, the annual support amount of a single technological innovation center does not exceed 20 million yuan, subsidies in the second and third years are based on the outcome of the previous year's operation performance appraisal. The accumulated support in 3 years shall not exceed 50 million yuan. Support funds for enterprises are to strengthen innovation capacity building.
- **Advisory Units:** Beijing Municipal Science & Technology Commission, Administrative Commission of Zhongguancun Science Park
- **Policy basis:** "Management Measures of Zhongguancun National Independent Innovation Demonstration Zone on Support Fund for Improving Enterprise Innovation Capability(Trial), (Jingkefa [2022] No. 5)

67. Support for opening up innovation center of newly-introduced or newly-approved enterprises district-level

- **Support content:** Encourage leading enterprises to take the lead and build innovation centers with colleges and universities and SMEs to enhance industrial innovation capabilities. A one-time financial support of 10 million yuan will be given to national innovation centers, national key laboratories, national engineering research centers and other qualified entities that are newly-introduced or newly-approved; Beijing Municipal Technology Innovation Center, Science and Technology Research and Development Institutions, Engineering Research Center and other qualified that are newly-introduced or newly-approved will be given a one-time financial support of 1 million yuan; BDA-level Technological Innovation Centers that are newly obtained the qualification, a one-time financial support of 500,000 yuan will be given.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

68. Strengthen industrial common technical support capabilities

district-level

- **Support content:** Promote the construction of public technical service platforms and test bases such as proof of concept, proofing centers and test scale-up, and provide key support for the industrialization of innovation achievements. For platforms for large service enterprises and high industry influence, up to 5 million yuan financial support will be given on the basis of their service capabilities and effects. For national public service platform with outstanding contribution, support will be given according to "special matters, specially managed". Issue scientific and technological innovation service vouchers, encourage enterprises in BDA to purchase professional technical services from recognized public technical service platforms and pilot service bases, and promote the opening and sharing of scientific and technological resources.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

SUPPORT FOR INNOVATION INCUBATION CARRIER

69. Operation rewards to those whose comprehensive evaluation is "qualified"

district-level

- **Support content:** The reward amount is calculated on the basis of 25% of the total rent of the previous year, and the reward period shall not exceed 3 years from the completion date of the first comprehensive evaluation; The reward area standard for single creative space operation is 500m², and the reward area standard for single incubator operation is 2,000m². The excess area will not be counted in; If incubation work is carried out in a leased site, the reward unit price of industrial land (class) projects shall not exceed 3 yuan/day/ m², and the reward unit price of commercial service land projects shall not exceed 5 yuan/day/ m²; If the property owner uses its own site to carry out incubation work, the reward unit price standard for industrial land (class) projects is 3 yuan/day/ m², and the reward unit price standard for commercial service land projects is 5 yuan/day/ m².
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Management Measures of Beijing E-Town on Identification of Innovation Incubation Carrier(Provisional)", (Jingji Guanfa [2023] No. 8); "Implementation Rules of Beijing E-Town on Rewarding and Supporting Innovation Incubation Carrier(Provisional)", (Jingjiguanfa [2023] No. 9)

70. Carrier operation rewards, fund cooperation support, common technology platform support, and professional incubation support will be given to those whose comprehensive evaluation is "excellent"

district-level

- **Support content:** Carrier operation reward. The reward amount is calculated on the basis of 50% of the total rent of the previous year, and the reward period shall not exceed 3 years from the completion date of the first comprehensive evaluation; The reward area standard for single creative space operation is 500m², and the reward area standard for single incubator operation is 2,000m². The excess area will not be counted in; If incubation work is carried out in a leased site, the reward unit price of industrial land (class) projects shall not exceed 3 yuan/day/ m², and the reward unit price of commercial service land projects shall not exceed 5 yuan/day/ m²; If the property owner uses its own site to carry out incubation work, the reward unit price standard for industrial land (class) projects is 3 yuan/day/ m², and the reward unit price standard for commercial service land projects is 5 yuan/day/ m².
Common technology platform support. Encourage incubators to provide low-cost, high-efficiency and professional technology maturation and product trial production services for hard technology start-up projects in related fields, and ensure that hard technology start-up enterprises can "use immediately upon settle-down" and operate asset-light. 30% of the amount of the purchase cost of platform equipment and equipment-related software upgrades, maintenance and repairs in the previous year will be given as support, up to 2 million yuan.
Professional incubation activities support. Encourage innovation incubation carriers to carry out entrepreneurship salons, roadshows, entrepreneurship competitions, entrepreneurship education and training and other activities. 30% of the funds invested in the previous year's activities will be given as support, up to 300,000 yuan.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Management Measures of Beijing E-Town on Identification of Innovation Incubation Carrier(Provisional)", (Jingji Guanfa [2023] No. 8); "Implementation Rules of Beijing E-Town on Rewarding and Supporting Innovation Incubation Carrier(Provisional)", (Jingjiguanfa [2023] No. 9)

71. Encourage the upgrading of innovative incubation carriers

district-level

- **Support content:** Contents of support: For the maker space that was filed at the national and municipal levels in the previous year, a one-time reward subsidy of 500,000 yuan and 250,000 yuan will be given respectively; For incubators that were recognized at the national and municipal levels in the previous year, a one-time reward subsidy of 1 million yuan and 500,000 yuan will be given respectively ; For those who received the support of Zhongguancun Benchmarking Incubator in the previous year, the leading class and the cultivation class will be given a one-time reward subsidy of 1 million yuan and 500,000 yuan respectively; Difference in reward will be given to those obtain qualification and recognition, filing or support in different grades.
- **Advisory Unit:** Science and Technology Innovation Bureau of BDA
- **Policy basis:** "Management Measures of Beijing E-Town on Identification of Innovation Incubation Carrier(Provisional)", (Jingji Guanfa [2023] No. 8); "Implementation Rules of Beijing E-Town on Rewarding and Supporting Innovation Incubation Carrier(Provisional)", (Jingjiguanfa [2023] No. 9)

06 GREEN AND LOW-CARBON DEVELOPMENT

List of policies for foreign-invested enterprises in Beijing Economic-Technological Development Area

SUPPORT FOR TECHNICAL TRANSFORMATION

72. Support digital, intelligent and green transformation of enterprises

municipality-level

- **Support content:** Support enterprises to apply for intelligent, digital and green technological transformation projects, and up to 30 million yuan will be given to eligible projects.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Several Measures of Beijing Municipality on Promoting High-Quality Development of Specialized, refined, differential, and innovative SMEs"

73. Rewards for transformation and upgrading of key projects and institutions that meet the standards

municipality-level

- **Support content:** In the fields of intelligent manufacturing, green manufacturing, characteristic parks, reuse of old factories, producer services, new infrastructure, industrial chain coordination, industrialization of innovative products, etc., key projects and institutions that meet the standards will be rewarded, and investment projects will be rewarded on the basis of the proportion of investment, with a maximum of 30 million yuan for a single project.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84)

74. Discount interest support for digital and intelligent transformation of enterprises

district-level

- **Support content:** Support the application of intelligent equipment and the construction of intelligent factories in high-tech industries, promote the transformation of advanced manufacturing enterprises to all-factor, whole-process and multi-field intelligent collaborative operations, and build new competitive advantages based on intelligent manufacturing. For enterprises in BDA that implement technological transformation or intelligent transformation, if the amount of single loan from banks in the region is between 5 million yuan and 30 million yuan (including), discounted interest support will be given on the basis of 50% of the actual interest incurred during the loan period according to the actual effects such as output value increase and energy consumption reduction. The maximum amount discounted interest for single enterprise is 10 million yuan.
- **Advisory Units:** Commerce and Finance Bureau, Science and Technology Innovation Bureau, and Business Cooperation Bureau of BDA
- **Policy basis:** "Several Opinions of the Beijing Economic-Technological Development Area on Accelerating the Construction of an International Science and Technology Innovation Center and Building the Stronghold of High-tech Industries", (Jingjiguan [2022] No. 8)

75. Support foreign-invested enterprises to make intelligent and digital transformation

district-level

- **Support content:** For internationally renowned top core enterprises, if the major new infrastructure projects invested and constructed by them play a leading role in the areas of regional economic contribution, national strategic support or industrial ecological cultivation in BDA, or play a decisive role in the digital transformation and upgrading of traditional industries and form a mature and reproducible model, and implement more than three digital upgrading projects of traditional industries in BDA, key support will be provided, with a maximum reward of 15% of their total investment, and the total reward for a single project should not exceed 50 million yuan.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

76. Support for energy saving and carbon reduction technical transformation project

district-level

- **Support content:** Support projects that carry out energy-saving technological transformation of existing production processes and equipment and projects that can generate a certain amount of energy saving in the fields of industry, transportation, construction and service industries. The project must have applied for financial support from Beijing Municipal Development and Reform Commission and passed the final examination and publicity of Beijing Municipal Development and Reform Commission.

On the basis of Beijing municipal financial subsidies, BDA will provide reward on the basis of 1: 1. The reward standards are 600 yuan/ton of standard coal for industrial projects and 800 yuan/ton of standard coal for non-industrial projects, and the total amount of district-level supporting reward and Beijing municipal reward for each project shall not exceed 50% of the total investment of the project.

- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

77. Subsidies for distributed photovoltaic power generation projects

district-level

- **Support content:** Support the construction and operation of distributed photovoltaic power generation projects in the site where users are located, give priority to self-generation and self-use of the users and transmit surplus power to the network. In principle, the project should have been completed and connected to the grid for power generation, and have applied for financial support from the Beijing Municipal Development and Reform Commission, and passed the final examination and publicity of the Beijing Municipal Development and Reform Commission.

On the basis of Beijing municipal financial subsidies, BDA will provide reward on the basis of 1: 1, and the reward standard is:

- (1) The subsidy standard for conventional projects, general industrial and commercial electricity prices, large industrial electricity prices or agricultural electricity prices is 0.3 yuan per kWh (including tax);
- (2) The subsidy standard for non-resident users in venues such as schools and social welfare houses who implement residential electricity prices is 0.4 yuan per kWh (including tax);
- (3) For high-end applications, all projects that realize the integrated application of photovoltaic and buildings (photovoltaic modules as building components), the subsidy standard is 0.4 yuan per kWh (including tax).

The reward calculation period of each project is 1 year (starting from the grid-connection acceptance date), with 50% by the project investor and 50% by the site property right, and the total of the district-level supporting reward funds and Beijing municipal reward funds of each project does not exceed 50% of the total investment of the project.

- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

78. Energy saving and green transformation of public buildings

district-level

- **Support content:** Public buildings with a single building area of 3,000m² or more, ordinary public buildings with an energy-saving rate no less than 15% after energy-saving renovation, or large public buildings with an energy-saving rate no less than 20% will be given district-level supporting rewards of 15 yuan/ m². For ordinary public buildings with actual energy saving rate greater than 10% and less than 15% or large public buildings with actual energy saving rate greater than 15% and less than 20%, reward will be applied according to the above standards on the basis of the converted area. The algorithm for converted area is as follows:

Converted Area = Base Construction Area X (Actual Energy Saving Rate/Target Energy Saving Rate)

Reward funds shall be allocated at one time after the project passes the comprehensive acceptance review and is included in the management system library of energy-saving and green renovation projects of public buildings in Beijing, and the total amount of district-level supporting reward for a single project and Beijing municipal reward shall not exceed 50% of the total renovation investment.

- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

SPECIAL REWARD FOR GREEN DEVELOPMENT

79. Reward for green construction site projects

district-level

- **Support content:** If a green site project won the titles of "Beijing Green Civilized Safety Site" or "Beijing Green Civilized Safety Model Site" in 2019 and 2020 which is selected by the construction administrative department, and the construction site has never been punished by the relevant administrative departments for environmental problems in that year, it can be rewarded with 100,000 yuan and 200,000 yuan respectively.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

80. Reward for green manufacturing system title projects

district-level

- **Support content:** According to the standards of the Ministry of Industry and Information Technology on the construction of green manufacturing system, a one-time reward of 100,000 yuan will be given to projects with the titles of national green manufacturing system such as "Green Factory", "Green Design Product" and "Green Supply Chain Management Demonstration Enterprise".
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

81. Reward for water-saving unit title projects

district-level

- **Support content:** For water-saving unit title projects, a one-time reward of 100,000 yuan will be given to the units that have won the title of water-saving unit in 2020 which is selected by Beijing Water Authority.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

82. Reward for projects of outstanding units in key energy-consuming units' energy-saving index assessment

district-level

- **Support content:** Outstanding projects for energy-saving index assessment of key energy-using units, and key energy-using units in BDA with excellent energy-saving index assessment grade (this assessment is organized by BDA) in 2019 or 2020 will be given a one-time reward of 200,000 yuan.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

83. Reward for energy conservation and carbon reduction consulting projects

district-level

- **Support content:** For energy conservation and carbon reduction consulting projects, consulting service units such as associations, alliances and consulting institutions in BDA are encouraged to carry out technical consulting and planning services such as energy conservation and carbon reduction, cleaner production, energy audit, carbon verification and carbon neutrality certification. Consulting service units that carry out the above-mentioned technical consulting and planning services for five or more key energy-using units and carbon emission units in BDA in 2021 will be rewarded with 100,000 yuan.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

84. Reward for carbon neutral certification projects

district-level

- **Support content:** The carbon neutralization certification project encourages enterprises and parks to implement carbon peaking and carbon neutralization actions, and achieves zero net carbon emissions in parks or factories by implementing measures such as photovoltaic, wind power, ground source heat pump and carbon sink offset. A one-time reward of 500,000 yuan will be given to regulated industrial enterprises that have obtained carbon neutralization certification in 2021 or parks that have been included in urban upgrade (among which key carbon emission units can obtain carbon neutralization certification for part of factories or areas, and other units need to obtain carbon neutralization certification for the whole factory). For enterprises, the power generation of self-built new energy facilities should not be less than 10% of the power purchased from the power grid; For parks included in urban upgrade, the power generation of self-built new energy facilities should not be less than 5% of the power purchased from the power grid; For key carbon emission units that have obtained carbon neutrality certification of factories or areas, the annual power consumption scale of plant or region should not be less than 4 million kWh. All declaring units shall be subject to carbon verification by qualified carbon emission verification enterprises (with ISO14064-1 greenhouse gas declaration verification qualification officially certified by China National Accreditation Service for Conformity Assessment (CNAS)).
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115)

GREEN BUILDING REWARD

85. Reward for design mark projects

district-level

- **Support content:** For civil buildings or industrial buildings with two or three-star design marks of green buildings, a single project will be given a one-time district-level special reward of 400,000 yuan and 800,000 yuan respectively.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

86. Reward for operation mark projects

district-level

- **Support content:** Industrial construction projects that have obtained the two and three star operation marks of green buildings will be given special district-level rewards of 45 yuan/ m² and 80 yuan/ m² respectively on the basis of the total construction area in the mark certificate, and the award amount of a single project will not exceed 5 million yuan."
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

INNOVATIVE DEMONSTRATION PROJECTS

87. Demonstration projects such as ultra-low energy consumption buildings and near zero energy consumption buildings

district-level

- **Support content:** In order to promote the large-scale development of ultra-low energy consumption buildings and near-zero energy consumption buildings in Beijing E-Town through the leading role of demonstration projects, 100 yuan/ m² district-level supporting reward will be given to projects rated as ultra-low energy consumption buildings and near-zero energy consumption buildings, and the reward amount of a single project does not exceed 5 million yuan. Reward funds will be allocated after the project is confirmed as a demonstration project of ultra-low energy consumption buildings in Beijing municipality and completed and passed the special acceptance organized by Beijing municipality.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

88. Innovative demonstration projects in green buildings, building energy conservation, etc.

district-level

- **Support content:** For other demonstration projects that show outstanding achievements or innovative achievements in the application of green building technology, evident economic and environmental benefits and demonstration driving effects, and applicable in Beijing E-Town, on the basis of the actual situation, rewards will be given according to 20% of the actual payment amount of the project (excluding tax), after expert review is conducted in the way of "special matters, specially managed", the green energy-saving benefits and incremental investment of the project is comprehensively considered, with the reward amount of a single project not exceeding 5 million yuan. If one wins the national or Beijing science and technology and innovation awards on top of that, the single project will be awarded another 500,000 yuan.
- **Advisory Unit:** Urban Operation Bureau of BDA
- **Policy basis:** "Fund Support policies of Beijing Economic-Technological Development Area on Green Development in 2021", (Jingjiguan [2021] No. 115); "Calculation Standard of Reward Funds for Green Buildings, Energy-saving and Green Transformation of Public Buildings, and Innovation Demonstration Projects"

07 FINANCIAL SUPPORT

List of policies for foreign-invested enterprises in Beijing Economic-Technological Development Area

INVESTMENT AND FINANCING SUPPORT

89. Financing and lease subsidy for high-tech industry development

municipality-level

- **Support content:** When an enterprise is required to have signed a financing and lease contract, and the financing and lease expenses incurred by the tenant for project R&D and construction investment have not been subsidized, a post subsidy with a rate of no more than 5% will be given, which shall be arranged annually up to 3 years, with up to 10 million yuan subsidy each year
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinfa [2021] No. 84)

90. Support for financing and leasing of "specialized, refined, differential, and innovative" enterprise

municipality-level

- **Support content:** Support enterprises to purchase R&D, testing, production and other equipment through financial leasing, and subsidies of up to 10 million yuan per year will be given.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Several Measures of Beijing Municipality on Promoting High-Quality Development of Specialized, refined, differential, and innovative SMEs"

91. Support for M&A Transaction Amount

district-level

- **Support content:** For enterprises listed through M&A and holding the controlling share, listed enterprises on selected list of the "New Third Board", high-tech enterprises above designated size and successfully settle in BDA, up to 3 million yuan, 500,000 yuan and 500,000 yuan rewards respectively will be given on the basis of 5% of the amount of M&A.
- **Policy basis:** "First Batch of Industrial Policies in Yizhuang Group, High-end Industrial Zone" of China (Beijing) Pilot Free Trade Zone"

LOAN DISCOUNT SUPPORT

92. Provide inclusive interest discounts for companies that contribute to annual fixed asset investment

municipality-level

- **Support content:** Provide inclusive discounted interest to enterprises contributing to annual fixed assets investment. The project unit is required to sign a loan contract with the bank with the loans already in place within the contract period. For those whose the fixed assets investment in key industries or software information service industries in Beijing last year included in the national statistic scope above designated, the discounted interest rate will not exceed 2%. If the actual interest rate is lower than 2%, the discounted interest will be paid according to the actual interest rate. The discounted interest will be paid annually and the maximum annual discount for a single enterprise shall not exceed 10 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinfa [2021] No. 84)

93. Loan interest discount support for major projects and enterprises implementing M&A

municipality-level

- **Support content:** Loan interest subsidies will be given to major projects with a total investment of more than 1 billion yuan (including), or projects or of overall and strategic importance, as well as enterprises implementing mergers and acquisitions. Project units are required to sign loan contracts with banks, and the discount rate does not exceed the quoted loan prime rate (LPR) of medium and long-term loans in the same period announced by the People's Bank of China. If the actual interest rate is lower than LPR, the discount rate shall be based on the actual interest rate. It will be arranged annually, the discount period shall not exceed 3 years, and the annual discount amount of a single project shall not exceed 50 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinfa [2021] No. 84)

94. Interest discount support for special credit products

municipality-level

- **Support content:** For special credit products launched by the Municipal Economic and Information Technology Bureau in conjunction with financial institutions, supporting interest subsidies for project loans will be provided. The project unit is required to sign a project loan contract with the bank, with the loan funds should be in place and the discount rate not exceeding 2%. For projects using vacated space and old factory buildings, the discount rate will be increased by 1%, which will not exceed the actual interest in total. The discount period will not exceed 3 years, and the maximum annual discount amount of a single enterprise will not exceed 10 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84)

95. Subsidized interest for entrepreneurship guaranteed loan

district-level

- **Support content:** The target of subsidized of business guaranteed loans are divided into small and micro enterprises, privately or individually-owned business, farmers' professional cooperatives, private non-enterprise units and other entrepreneurial entities registered and operated in BDA, with good credit record and specific business projects. Among them, eligible individual borrowers can apply for a business guaranteed loan of up to 500,000 yuan, for up to 3 years; The loan amount of SME borrowers shall not exceed 3 million yuan, for up to 2 years.
- **Advisory Unit:** District Financial Audit Bureau, Social Affairs Bureau
- **Policy basis:** "Management Measures of Beijing Economic-Technological Development Area on Entrepreneurship Guaranteed loan Interest Subsidies" "Management Measures of Beijing Economic-Technological Development Area on Entrepreneurship Guaranteed loan and Guarantee Fund", (Jingjiguanfa [2023] No. 7)

SUPPORT FOR SCIENCE AND TECHNOLOGY INSURANCE

96. Insurance subsidy support for high-tech fields

municipality-level

- **Support content:** Insurance subsidies will be given in the fields of basic and innovative product application and promotion, commercial space satellite launch, etc. Project units are required to sign insurance contracts with insurance companies, with the maximum subsidy amount not exceeding 50% of the actual annual insurance premium. It will be arranged annually for up to 3 years, and the annual subsidy amount of a single enterprise not exceeding 10 million yuan.
- **Advisory Unit:** Beijing Municipal Bureau of Economy and Information Technology
- **Policy basis:** "Management Measures of Beijing Municipality on High-tech Industry Development Fund", (Jingjingxinf [2021] No. 84) ; "2023 Guidelines for the Implementation of Beijing's High-tech Industry Development Funds (First Batch)" (Note: The 2023 policy is for reference only, and the follow-up is subject to the latest annual notice)

97. Funding subsidy for purchasing technology insurance

district-level

- **Support content:** Bring together technology and finance elements, promote the coordinated development of innovation chain and capital chain, actively guide and support enterprises to go public, and promote the rapid growth of SMEs. For the purchase of science and technology insurance by science and technology enterprises in BDA, a support up to 1: 1 of municipal subsidy funds will be given.
- **Advisory Units:** Science and Technology Innovation Bureau and Commerce and Finance Bureau of BDA
- **Policy basis:** "Several Opinions of Beijing Economic-Technological Development Area on Accelerating the Construction of International Science and Technology Innovation Center and Building the Stronghold of High-tech Industry", Jingjiguan [2022] No.8

08 SERVICE GUARANTEE

List of policies for foreign-invested enterprises in Beijing Economic-Technological Development Area

TALENT SUPPORT

98. Individual income tax subsidies for foreign high-end talents

municipality-level

- **Support content:** In specific areas of Beijing (covering the functional core area of the capital, Beijing Municipal Administrative Center, China (Beijing) Pilot Free Trade Zone, Zhongguancun Science City, Huairou Science City, Future Science City, innovative industrial clusters and innovation and leading demonstration area for the high-quality development of manufacturing, etc.), subsidies will be given to foreign high-end talents whose actual personal income tax burden exceeds 15%.
- **Advisory Units:** Municipal Finance Bureau, Municipal Talent Bureau, Municipal Taxation Bureau
- **Policy basis:** "Interim Measures for the Administration of Individual Income Tax Subsidies for Foreign High-end Talents in Beijing", Jingcaishui [2021] No.731

99. Special reward for personal economic contribution

district-level

- **Support content:** Every year, all employees will be rewarded according to a certain proportion of the disposable part of the local finance of BCA in the regional economic contribution generated by the personal salary income of enterprise employees. Outstanding talents and leading talents in E-Town will be rewarded on the basis of the proportion of 50% to 100%. This reward and special reward for talents in E-Town can be determined by oneself but cannot be enjoyed at the same time. Those who meet the requirements of the catalogue of outstanding talents in E-Town will be rewarded on the basis of the proportion of 15%. Other employees of the enterprise shall be rewarded according to the proportion of 8%. This fund will be subject to comprehensive arrangement of enterprises, and can only be used for personal reward or employee training, and shall not be used for other purposes.
- **Advisory Unit:** Organization and Personnel Department of BDA Working Committee
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting Innovation and Entrepreneurship of High-tech Industrial Talents (Trial)", (Jingkaidang [2020] No. 92) (Note: This policy is for reference only, and the latest notice of Talent 2.0 shall prevail)

100. Reward for the withholding and payment of individual income tax by the shareholding platforms of listed companies in BDA

district-level

- **Support content:** For the shareholding platform belonging to listed enterprises in BDA, if the personal income tax withheld and remitted for its employees (partners) in the current year amounts to 500,000 yuan or more due to matters such as "share reduction, M&A and reorganization", it will be rewarded on the basis of 50% of the disposable part of local finance in BDA. The funds will be subject to the comprehensive arrangement of the enterprise, and can only be used for personal rewards, and shall not be used for other purposes. (Applicable to enterprises that have successfully listed after January 1, 2020 and experienced the above-mentioned issues).
- **Advisory Unit:** Commerce and Finance Bureau of BDA
- **Policy basis:** "Several Measures on Further Supporting Enterprises' Listing and Development (Trial)", (Jingjiguan [2023] No. 2)

CORPORATE SERVICE

101. Support social organizations to provide professional service guarantee

district-level

- **Support content:** Support the establishment of social organizations such as industry associations, chambers of commerce and alliances with intermediary services as their main functions, provide professional services such as accurate financing, development planning, policy interpretation, talent introduction and project docking for SMEs, and corresponding rewards will be given to those made outstanding achievements.
- **Advisory Unit:** Organization and Personnel Department of BDA Working Committee
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting Innovation and Entrepreneurship of High-tech Industrial Talents (Trial)", (Jingkaidang [2020] No. 92) (Note: This policy is for reference only, and the latest notice of Talent 2.0 shall prevail)

LIFE SERVICE

102. Provide service guarantees such as housing, medical services, educational services, and residence permits for talents

district-level

- **Support content:** The support policies is subject to the latest notice of Talent 2.0.
- **Advisory Unit:** Organization and Personnel Department of BDA Working Committee
- **Policy basis:** "Implementation Measures of Beijing Economic-Technological Development Area on Supporting Innovation and Entrepreneurship of High-tech Industrial Talents (Trial)", (Jingkaidang [2020] No. 92) (Note: This policy is for reference only, and the latest notice of Talent 2.0 shall prevail)
